INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

ABC proposes to amend Section 106 (d) of Title 4, Article 16 of the California Code of Regulations (CCR). This section concerns alcoholic beverage lists.

The Department of Alcoholic Beverage Control proposes amending section 106(d) in response to a petition received from licensees requesting an increase in the monetary limit of alcoholic beverage lists from \$25 to \$50 to more accurately reflect modern-day business practices. The \$50 limit will be consistent with market trends and practices.

Existing law, known as the "tied-house" law, separates the alcoholic beverage industry into three component parts, or tiers, of manufacturer (including breweries, wineries and distilleries), wholesaler, and retailer (both on-sale and off-sale).

Tied-house refers to a practice in this country prior to Prohibition where a bar or public house, is tied to the products of a particular manufacturer, either because the manufacturer owns the house/bar, or the house is contractually obligated to carry only a particular manufacturer's products.

The original policy rationale for this body of law was to: (a) promote the state's interest in an orderly market; (b) prohibit the vertical integration and dominance by a single producer in the marketplace; (c) prohibit commercial bribery and protect the public from predatory marketing practices; and, (d) discourage and/or prevent the intemperate use of alcoholic beverages. For these reasons, other than exceptions granted by the Legislature, the holder of one type of license is not permitted to give free goods, rebates, premiums, services or anything of value to another licensee in connection with the sale of alcoholic beverages. Rule 106(d) relates to one of these exceptions.

The specific benefits anticipated by this proposed change could be an increase in compliance with this prohibition therefore diminishing trade violations.

The Department has conducted an evaluation whether the proposed regulations are inconsistent or incompatible with existing state regulations and has determined that these are the only regulations concerning Alcoholic Beverage Lists. Therefore, this proposed amendment to this regulation is consistent and compatible with existing state regulations seeking to update outdated regulations with today's business practices.

RESULTS OF THE ECONOMIC IMPACT ANALYSIS

The Department concludes that it is (1) unlikely that the proposal will not create or eliminate jobs within California, (2) will not create new businesses or eliminate existing businesses within California, and (3) will not affect the expansion of businesses currently doing business within California.

Small businesses could possible benefit the most from this proposed action since small business owners may be the most vulnerable to trade practice violations as they are more prone to accepting these beverage list/menus as a way of keeping their overhead low.
