ABC Works to Reduce DUI Crashes and Underage Drinking

Enforcement Efforts in Hermosa Beach

Hermosa Beach – The California Alcoholic Beverage Control (ABC) conducted an operation in Hermosa Beach on Friday, April 8, 2011 to address complaints of over service of alcoholic beverages to patrons and reports of underage drinking.

This is part of an ongoing effort with local law enforcement to try to prevent DUI crashes and reduce underage youth access to alcohol.

Last week was spring break for several local high schools so ABC investigators conducted several ID checks throughout the evening. There was only one violation for sales of alcoholic beverages without a license and for presenting a cancelled license. The violations occurred at Blue 32, a bar located at 1332 Hermosa Ave, Suite 1, Hermosa Beach. Blue 32's license was cancelled on December 13, 2010.

The bar is not allowed to sell alcohol.

ABC is a department of the Business, Transportation and Housing Agency.
