

## **Assembly Bill 1221- Responsible Beverage Service Training Act**

---

The new AB 1221 mandate for Responsible Beverage Service (RBS) Training seems like it's light years away in 2021, but it is closer than you think. This bill will require anyone at an on-premise establishment that serves alcohol and their managers to take an ABC accredited RBS training and pass an exam beginning in July 2021.

The Department of Alcoholic Beverage Control's RBS Team has been hard at work developing the regulations, curriculum, and training standards for the upcoming mandate. We are excited to share the information we have developed after listening to the input of hundreds of stakeholders. The Team is also hoping to gather any last minute input from RBS Stakeholders before the regulations are noticed.

At this time, we are calling all RBS Stakeholders: local governments, law enforcement, policy groups, current and future RBS providers, licensees and their managers, to attend one of our upcoming Stakeholder Sessions.
